

PUAFER008 Confine Small Workplace Emergencies in a facility

COURSE INFORMATION - Units Delivered

- PUAFER008 - Confine small emergencies in a facility

No industry recommended renewal is identified on the certificate, employers are recommended to consult with stakeholders to identify appropriate training periods.

About the Course

This course covers the skills and knowledge for preparing for emergency situations, identifying and assessing an emergency, safely confining emergencies, using initial response equipment and reporting on the facility's emergency response.

If you are an occupant of a facility who is required to have first attack firefighting skills for small emergencies, such as small fires that can be controlled using a fire extinguisher; chemical spills that can be controlled using facility personal protective clothing and equipment and a spill kit; or a vehicle accident where there is no significant injury or damage, then this course is a must for you.

All aspects of this course will be undertaken in accordance with legislative requirements, organisational policies and procedures and accepted safe practices including those covered in Australian Standard (AS) 3745 and AS4083 for facilities and occupants.

Occupants are people attending a facility on a permanent or temporary basis such as an employee, contractor, student or resident, but not a visitor or patient and a facility is a building, structure or workplace that is, or may be, occupied by people (occupants).

Participants will learn:

- Applying Work, Health and Safety (WHS)/Occupational Health and Safety (OHS) requirements
- Communicating with occupants, emergency personnel and stakeholders
- Complying with facility policies and procedures
- Confining emergencies safely
- Giving and following instruction
- Identifying and acting to avoid or control any associated hazards
- Identifying and assessing an emergency
- Implementing facility emergency response procedures
- Preparing for emergency situations

- Reporting facility emergency response
- Restowing initial response equipment
- Using initial response equipment
- Utilising risk management processes

Entry Requirements

Participants must be able to complete the practical demonstrations for the course, including being able to safely confine emergencies and use initial response equipment.

Pre-course study: Students may be required to undertake online pre-course work prior to attending the face to face session depending on the course delivery mode.

Online study: Students must have access to a computer, smartphone, tablet or other electronic devices with access to the internet to complete the online/ pre-course studies.

Course Duration

Course durations can vary for multiple reasons, so the durations below are the *minimum possible amount*.

- **Refresher** Face to Face contact time of at least 3 Hours
- **Face-to-Face** Face to Face contact time of at least 3 Hours
- **Online with face-to-face assessment** Face to Face contact time of at least 30 Minutes.

Assessment Activities

Assessments conducted during face-to-face training session(s) include:

- Performance tasks - The assessor must observe the following performance tasks:
 - Prepare for emergency situations
 - Manage a small chemical spill
 - Put out a small paper/wood fire
