

## Fire Safety In Healthcare Facilities Skill Set

### COURSE INFORMATION - Units Delivered

- **PUAFER001 - Identify, prevent and report potential facility emergency situations**
- **PUAFER004 - Respond to facility emergencies**
- **PUAFER008 - Confine small emergencies in a facility**

No industry recommended renewal is identified on the certificate, employers are recommended to consult with stakeholders to identify appropriate training periods.

### About the Course

This program has been designed for members of an Emergency Planning Committee (EPC) or a person required to manage problems and resolve issues in relation to the organisation's facility emergency prevention process and emergency control structures.

It covers the skills and knowledge required to be 'emergency aware' in their facility allowing them to identify and where possible prevent the development of facility emergency situations. Participants will also learn how to manage and monitor facility emergency prevention and control structures for a complex facility or a defined group of facilities such as a building, structure, or workplace as specified in Australian Standard AS 3745-2010 and AS 4083-2010. It also includes preparing for emergency situations, identifying and assessing an emergency, safely confining emergencies, using initial response equipment and reporting on the facility's emergency response.

All aspects of this course will be undertaken in accordance with legislative requirements, organisational policies and procedures and accepted safe practices.

### Entry Requirements

Participants must have the physical capacity to complete all practical demonstrations. This includes wearing suitable identification, assisting occupants and using communications systems and initial response equipment.

**Online study:** Students must have access to a computer, smartphone, tablet or other electronic device with access to the internet to complete the online/pre-course studies.

## Course Duration

Course durations can vary for multiple reasons, so the durations below are the ***minimum possible amount***.

- **Face-to-Face** Face to Face contact time of at least 8 Hours
- **Online with face-to-face assessment** Face to Face contact time of at least 90 Minutes.

## Assessment Activities

### Performance tasks:

- Identify Emergency Protection Systems & Equipment
- Prepare For Emergency Situations
- Manage a Small Chemical Spill
- Put Out a Small Paper/Wood Fire
- Respond & Follow Instructions in An Emergency

### Documentation:

- Fire Safety Checklist
- Final Report of Findings

### Theory assessment:

- A written assessment consisting of multiple-choice and short answer questions. The student must complete all assessment questions

## Course Fes & Payments

- Please refer to our booking calendar for individual course fees.
- Refund and fee protection policy – Please refer to the student handbook (<https://allenstraining.com.au/students/student-handbook>)
- Payment Terms – Payment for individual participants is upfront, group booking payment terms are based on agreement between the client and service provider.

Group Bookings only - \$295.00 pp

Training will be conducted on-site or in an agreed location between the client and provider.

Training and assessment delivered on behalf of Allen's Training Pty Ltd RTO 90909
